Really? How did they come to our country Amma? Did they get on an aeroplane and come here?

No, no, Some **merchants** brought them here long ago by sea.

Why did they bring vegetables to India?

Amma and Appa laughed.

They could have brought some sweets. Why didn't they?

People came to India in search of spices especially black pepper. A man from Portugal named Vasco da Gama **sailed** to Kerala.

Imagine the joy of the sailors when they reached Kozhikode and found black pepper!
They took a lot of pepper back to their country.

They took spices from India.
