
Yes, but who brought the vegetables into India?
The **Portuguese** brought them to India. Potato was one of those vegetables.

Mani and Selvi looked at the potato curry on their plates. And quickly began to eat it.
Wow! This potato has travelled so far!
Careful, Selvi, don't upset our **foreign** visitor!

Selvi pulled a long green chilli out of the curry.
Who? Who is our foreign visitor ? Amma, you are making fun of me!
No, Amma is not making fun, she is talking about the foreign fruit chilli!
