PREFACE

The English textbook for standard six has been prepared following the guidelines given in the National Curriculum Framework, 2005. It has been created to make English language learning both effective and interesting. The aim has been to balance learning the structures and vocabulary of the language with learning their use in everyday life.

The activities have been carefully graded to allow a gradual building of language proficiency. The lessons provide effective individual and collaborative learning in pairs and groups and enable differentiation in multilevel classrooms. Each unit focuses on the themes of natural and social world to stimulate curiosity and imagination, engaging both heart and mind. An ICT Corner has been introduced in each unit for the first time to enhance digital literacy skills.

How to use the book?

- The First Term English Book for Standard VI has three units.
- Each unit is planned for a month.
- Each unit is divided into **sections** and each section is designed to initiate and sustain the **Active Learning** process.

Section II

Take turns and read this section aloud. Work in pairs and underline the new words. Find out their meanings from the dictionary.

Between the months of January and March, female Olive Ridleys come ashore at night to lay their eggs. This is quite a problem for them, as a turtle's front flippers enable it to swim gracefully and effortlessly but are not very useful for moving on land. The turtle has to haul itself laboriously onto the beach. Then it chooses a spot well away from the high-tide line. Here, it scoops out a nest cavity 45 cm deep, into which it lays about 100 eggs. Each egg is in the shape and size of a table tennis ball. Once all the eggs are laid, the turtle fills in the cavity, then it camouflages the nest by tossing sand on it using its flippers. That done, it returns to the sea. The eggs are left to incubate under the warmth of the sun.

Olive Ridley laying eggs

- Each unit starts with an **introduction of the theme** anchored by two girls **Ayesha** and **Madhi** .
- The **pictorial warm up page will help activate students own knowledge and ideas of the** topic.
- **The digital warm up** can be used for visualizing the theme to motivate and interest learners.

- **In-Text questions** each section can be used for discussion and to check and develop comprehension skills.
- **Digital glossary** can be used for hearing correct pronunciation and visualizing words.
- The **'Do You Know?'** box can be used to enhance general knowledge while initiating spoken language.

We found an island, a small rocky island in a dry river-bed. It was one of those river-beds so common in the foothills, which are completely dry in summer but flooded during the monsoon rains. A small mango was growing on the island. 'If a small tree can grow here,' said Grandfather, 'so can others.' As soon as the rains set in and while rivers could still be crossed, we set out with a number of tamarind, laburnum, and coral tree saplings and cuttings and spent the day planting them on the island.

Do you know?

The Western Ghats is home to nearly 325 globally-threatened flora, fauna, bird, amphibian, reptile and fish species.

Discuss and answer.

1. Why do we need trees? List four reasons that Grandfather gives.
2. Why did the author help his Grandfather plant trees?
3. What made Grandfather plant saplings on the rocky island?

GLOSSARY

protested	- opposed or disagreed
nightmare	- a frightening dream
interfering	- stopping
