Convert into the 24 hour format (Railway time)

12 hour time	a.m / p.m	add 12 hr to p.m	24 hour time
04.15 a.m	a.m	-	04:15 hours
07.40 p.m	p.m	(7+12) hours	19:40 hours
10.05 p.m	p.m	(10+12) hours	22:05 hours
06.00 a.m	a.m	-	06:00 hours
12.25 a.m	a.m	-	00:25 hours

Try these

Convert the 12 hour format into the 24 hour format and vice versa

10.40 a.m	= 10:40 hours	1 p.m	= 13:00 hours
11 a.m	= 11:00 hours	11.15 p.m	= 23:15 hours
1.15 a.m	= _____hours	3 p.m	= _____hours
5 a.m	= _____hours	12 midnight	= _____hours
16:20 hours	= _____a.m/p.m	12:25 hours	= _____a.m/p.m
00:40 hours	= _____a.m/p.m	4:10 hours	= _____a.m/p.m

2.5.6 Duration between the two given time instances

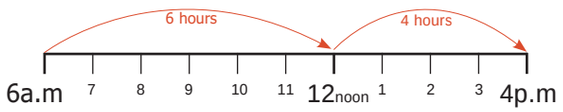

Example16: Find the duration between 6 a.m and 4 p.m

Solution :

Method-1

Conversion of 6 a.m to Railway time
= 06:00 hours
Conversion of 4 p.m to Railway time
= (4+12) hours = 16:00 hours
Time duration between 6 a.m and 4 p.m
= The difference between 16 hours and 6 hours = 16 hours - 6 hours = 10 hours

Method-2

= 6 hours + 4 hours = 10 hours

Example 17:

The arrival and departure timings of the Chennai – Trichy Express are given below.

Station	Arrival	Departure
Chennai Egmore	-	20:30
Chengalpattu	21:30	21:32
Villupuram junction	23:15	23:25
Virudhachalam junction	00:07	00:10
Trichy	04:30	-

(i) At what time does the train depart from Chennai Egmore to arrive at Trichy?
The train departs from Egmore at 20:30 hours to arrive Trichy at 4:30 hours.

(ii) How long does it halt at Villupuram?
It halts at Villupuram for 10 minutes.
