6.3 Food Adulteration

Food is the basic necessity of life. The quality and safety aspects of food are paramount significance, but the major problem we face is Food ***Adulteration. Adulteration is defined as the process by which quality or the nature of a given substance is reduced through***

i. The addition of a foreign or an inferior substance

ii. The removal of a vital element.

The word adulterated implies on element of deceit. It means mixing the food with something inferior or spurious.

Adulterant is defined as any material which is employed or which could be employed for the purpose of adulteration.

ACTIVITY - 4
