ICT CORNER

Farming

Through this activity you will learn to farm.

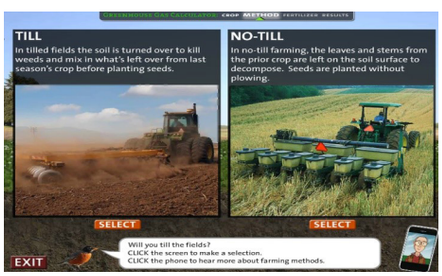

STEPS:

1. Use the URL to reach **'Interactive Farming'** page and click **'Start'** to play the game.
2. Select the crop you want to grow and observe how to plant them in the field.
3. Select the type of field you want to grow and till the land to observe the release of **'Green House Gas'** into the atmosphere.
4. Select the amount of fertilizer you want to utilize and get results of crop yield and greenhouse gas emission for your farming.
