

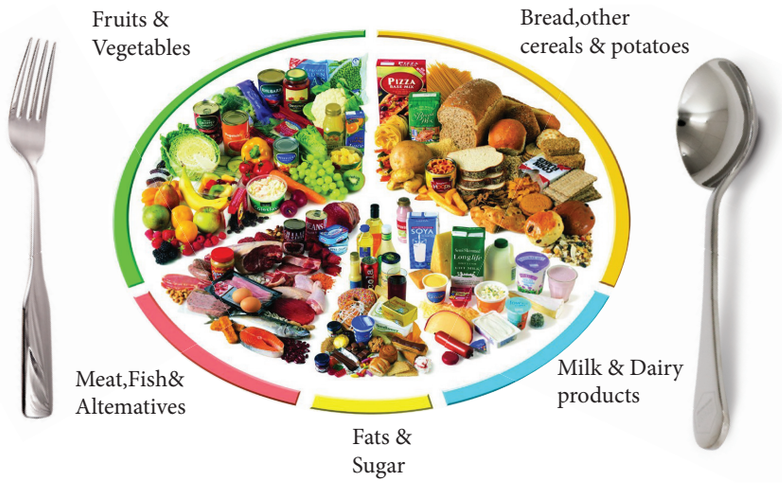

Fig 1.4: Eatwell plate

Agency as a guide that aims to help people to understand and enjoy healthy eating. The Eatwell plate.

Eight Tips for Eating Well

1. Base your meals on starchy foods.
2. Eat lots of fruit and vegetables.
3. Eat more fish.
4. Cut down on saturated fat and sugar.
5. Try to eat less salt
6. Get active and maintain a healthy weight.
7. Drink plenty of water.
8. Don't skip breakfast.

Food from the largest group should be eaten most often and food from the smallest group should be eaten occasionally. The guide is shaped like a dinner plate which has been designed to make healthy eating simpler to understand and interpret.

People should be encouraged to choose a variety of foods from the four largest groups every day to ensure that they obtain the wide range of nutrients their bodies need to grow, develop and function properly and stay healthy.

1.6 Balanced diet

Being familiar with the food groups, let us learn about balanced diet. In a meal, if we include food items from all the five food groups then our body will be able to get all the nutrients collectively.

A balanced diet is one which contains different types of foods in such quantities that the individual's need for the various nutrients is adequately met, and some amounts of nutrients are stored in the body to withstand short periods of low dietary intake.
