Think about the situation

Recipe for preparing lemonade for a group of 6 members.

- Squeeze 3 half lemons in a bowl.
- Add 5 glasses of normal water into the bowl.
- Add 4 teaspoons of sugar into the lemon juice.
- Stir the content well.
- Filter the content.
- Pour the filtered content into 6 glasses and serve.

E9NUH5

Using the above instructions, prepare lemonade for 12 members, 24 members and 3 members.

Example 2

Follow the instructions in the given puzzle to arrive at the same number (36).

Instructions

- Think of a number from 1 to 9.
- Multiply it by 9.
- If you have two digit number, add the digits together.
- Subtract 3 from the answer.
- Multiply the number by itself.

Solution

Let us take a number: 6
Multiply it by 9 : 9 x 6 = 54
Add the digits together : 5 + 4 = 9
Subtract 3 from the answer : 9 – 3 = 6
Multiply the number by itself : 6 x 6 = 36
Try for number other than 6.

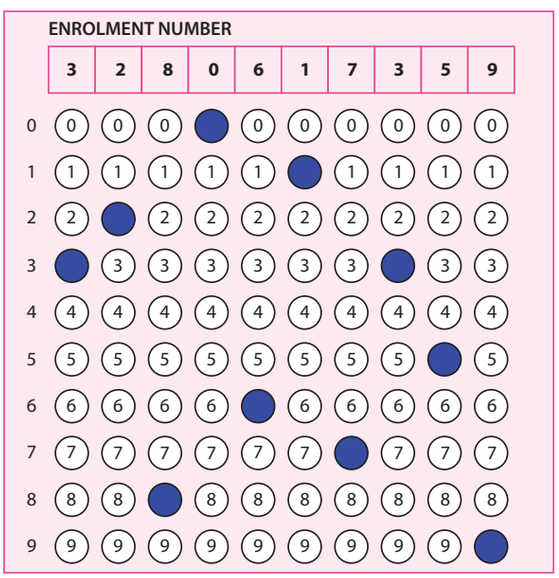

Example 3

You need to read the instructions carefully before filling the OMR sheet. The given OMR sheet is shaded based on the following instructions.

Instructions

- Observe the enrolment number written on the top row.
- The digits are to be shaded from left to right.
- Shade the corresponding bubbles under each of the number boxes.
- Only one digit is to be shaded in each column.
- Use only ball point pen for shading the bubbles.

Solution

This activity is very important as children need to fill OMR for various examinations like **NAS, NMMS**.
