Kodumanal – Erode District

It is identified with the Kodumanam of Pathitrupathu. More than 300 pottery inscriptions in Tamil – Brahmi have been discovered there. Archaeologists have also discovered spindles, whorls (used for making thread from cotton) and pieces of cloth, along with tools, weapons, ornaments, beads, particularly carnelian.

A Menhir found at burial site is assigned to the Megalithic period.

Megalithic Monuments in Tamil Nadu

The people who lived during the last stages of the New Stone Age began to follow the Megalithic system of burial. According to this system, the dead body was placed in a big pot along with burial goods. The Megalithic monuments bear witness to a highly advanced state of civilisation with the knowledge of iron and community living.

Urns - large pottery jars were used for burying the dead.
