# PREFACE

This book is written in accordance with the new guidelines formulated by Tamilnadu Government Curriculum Framework (TNCF-2017) Committee to strengthen the higher secondary education on par with the Global Standards by providing different kinds of learning opportunities to promote holistic approach to education. The objectives of this book on Electronics Equipment is not only for knowledge upgradation but also for providing basic skills viz., hands-on-experience with electronic circuits, trouble shooting of minor problems in electronic equipment, handling of test and measuring equipment.

This book covers the up-to-date curriculum in the area of Electronics and related fields to encourage the multidisciplinary approach and discourage rote learning of Electronics with different subject areas. Each Chapter has been designed and written in such a way to inculcate the basic knowledge of the Electronics to the students and also to give opportunity to the stakeholders to provide a platform for exhibiting their creativity.

Each Chapter starts with the introduction of the concerned topic and covers the contribution from different domains such as brief history of scientists and their related inventions, proverbs or Tamil literature quotes related to the particular scientific concept, learning objectives, learning outcomes and detailed description of the concepts with the related figures, equations for the easy and deep understanding of the subject matter. Further, several solved problems and self-evaluation exercises are given in each Chapter to motivate the students for self-learning and to develop self-confidence in the subject matter.

We appreciate the initiatives, encouragement and guidance extended by the Tamilnadu Curriculum Development committee headed by Prof. M. Anandakrishnan, who is responsible for shaping this book to this higher level. We are indebted to the institutions and organisations, which have generously permitted us to draw upon their resources, material and personnel. We are especially grateful to the members of the Tamilnadu State Council for Education Research and Training (SCERT) for their valuable support. For the systemic reform and continuous improvement in the standard of this book, we welcome critical comments and valuable suggestions, which will enable us to undertake further revision and refinement of the subject matters covered in this book.

We hope this book will bring an appreciable change in the teaching-learning process. We wish all the stakeholders to make use of this book effectively, to get the intended outcomes and benefits.

***With Wishes***

**Dr. Damodaran Nedumaran**
