
The shuttle went through a belt of asteroids.
Amuthan, an Asteroid is coming towards us. Turn the shuttle.
How will I turn the shuttle? Let me try pulling this lever.
The shuttle crash-landed on a new planet.
Are you alright, Amuthan?
I am fine. Quick! We must wear a spacesuit!
They ran for the suits. Nilavan saw green lights coming towards the shuttle.
Look at those lights. It is coming towards us.
Yes, they are all around us and that shuttle is very big! Let us wear our suits.
