Student activity

Read the following rules for lightning and practice the mock drill as given below.

1. Follow the 30/30 rule.
2. If there are less than 30 seconds between thunder and lightning, you are in danger.
3. Get inside and stay there until 30 minutes after the last lightning flash.
4. practice lightning crouch
5. If you see or feel lightning and there is nowhere to go for shelter, immediately squat down.
6. Balance on the balls of your feet, touch your heels together.
7. Cover your ears.
8. This way the charge may go through your back in to the ground without harming your vital organs.

GLOSSARY

1. **Disaster**: A serious disruption of the functioning of a society involving human, and material, and impacts that exceed the ability of the affected society to cope using its own resources.
2. **Disaster risk reduction**: The practice of reducing disaster risks through systematic efforts to analyze and manage the causal factors of disasters.
3. **Mitigation** : The lessening of the adverse impacts of hazards and related disasters
4. **Preparedness**: The capacity developed by organizations, to effectively anticipate, respond to, and recovers from the impacts of disaster events.
5. **Prevention**: The outright avoidance of adverse impacts of hazards and related disasters.
6. **Public awareness:** The extent of common knowledge about disaster risks, the factors that lead to disasters and the actions that can be taken, to reduce vulnerability to hazards.
7. **Resilience**: The ability of a society exposed to hazards to resist, absorb, adapt to and recover from the effects of a disaster.
8. **Hyogo Framework for Action** – A global blueprint for disaster risk reduction efforts between 2005 to 2015 – by providing specific operational guidance for promoting disaster risk reduction.
