Exercise :

Draw climatic diagram for the following station.

Month	Jan	Feb	Mar	April	May	June	July	Aug	Sep	Oct	Nov	Dec
Coimbatore												
Rainfall mm	7.56	13.34	23.04	85.78	178.47	481	492.64	315.2	202.82	263.57	153.53	44.03
Temp. °C	25.4	26.43	27.89	28.77	28.06	26.37	25.55	25.68	26.17	26.21	25.99	25.29
Karur												
Rainfall mm	8.14	16.72	23.73	62.44	96.94	90.68	122.52	106.8	144.68	213.49	135.09	67.64
Temp. °C	23.2	24.4	26.06	27.41	27.17	25.75	25.06	24.96	25.22	24.74	23.91	23.01
Tirunelveli												
Rainfall mm	14.9	31.45	24.32	85.27	128.5	195.7	147.82	118.9	116.18	203.96	163.37	68.79
Temp. °C	21.1	21.63	22.44	22.95	22.7	21.64	21.19	21.15	21.46	21.3	21.24	21.13
Vellore												
Rainfall mm	4.64	9.91	10.58	28.44	94.3	71.28	96.26	122.3	172.47	195.62	122.08	58.25
Temp. °C	23.2	25.08	27.46	29.69	30.04	28.51	27.56	27.11	26.92	25.9	24.33	23.07

10.4 Wind Rose Diagram

Wind rose diagrams show wind data for a particular station. It is in the form of star shape so it is also called star diagram. Wind rose diagram is used to depict the wind direction and average frequency for a particular site. Wind data are generally collected at 10 m above ground and if required at various height for specific purposes. They can be prepared for month-wise, season-wise or yearly as needed. Wind velocity can also be shown within this diagram. Sometimes they even include air temperature information. Wind rose diagram is vital for constructing runways in airports. The run way is generally oriented towards the prevailing wind. Wind rose diagram is an essential inclusion in pilots chart and sailing charts. Architects and builders need to analyse the wind rose diagram for proper ventilation. The concept of simple wind rose diagram is given below.

Example

Wind Direction	Percentage of Days Wind Blowing from this Direction
North	27
North east	9
East	8
South east	14
South	10
South west	7
West	6
North west	15
Calm	4

Step 1: Select a suitable scale (in this case 1 cm = 10%)

Step 2: Draw a circle to represent the calm for this scale.

Step 3: Mark the directions in this circle using a protractor as shown in the figure. (considering 0° for north, 45° for NE, 90° for East, 135° for South east, 180° for
