9.1 Introduction

First aid to sick and wounded has been practiced since ancient times. But an organized world wide effort for giving first aid came only in the year 1877 with the formation of St. John ambulance association of England after the Great apostle of St. John.

In **1920, Red Cross Society** of India was established. With more than 400 branches all over India, great success has been achieved in the improvement of health and prevention of diseases. Since then the universal need and utility of first aid has been increasing in this modern mechanized civilization.
