community involvement at every step from identifying the problem to solving them.

10.1.3 Goal of health education

The goal of Health education is teaching people to live life to its healthiest – that is to strive towards achieving ones health potentials under given socio-cultural, geo-climatic conditions, at every opportunity a nurse gets to teach a client / patient.

10.2 Objectives of Health Education

10.2.1 Informing People

Dissemination of information to the people regarding prevention of disease and promotion of health. This creates awareness of health needs, problems, take away the barrier of ignorance and misconceptions about health and Disease.

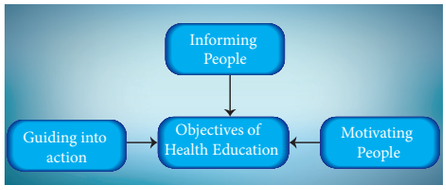

10.2.2 Motivating People

People should be motivated to change their ill habits, way of living as many diseases can be corrected by alteration of human behaviour or changes in health practices which are detrimental to health.

10.2.3 Guiding into action

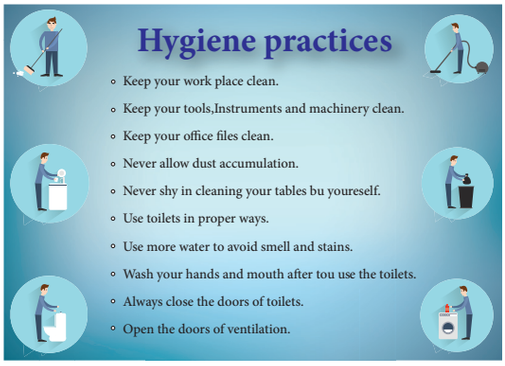

People should be motivated, communicated, and educated, to adopt and maintain health practices and lifestyle practices.

Health Education should be made an integral part of Education, Which will enable to change their life styles

1. These are the important hygiene practices a child has to inculcate.
2. Identify and carryout five hygiene practice in your school premises

10.2.4 Areas of health education

Health education is as wide as community health. Every aspect of community health has an educational component. In practice, the content of health education may be
