piece of rough flannel cloth or khadi. It provides an excellent background for displaying cut out pictures and other illustrations. These illustrations and cut out pictures are provided with a rough surface at the back by pasting pieces of sand-paper, felt or rough cloth, and they adhere at once, put on the flannel. Flannel graph is a very chief medium, easy to transport and promotes thought and criticism. The pictures must be arranged in proper sequence based on the talk to be given.

4. **Exhibits:**

These consist of objects, models, specimens, etc. They convey a specific message to the observer. They are essentially mass media of communication.

5. **Flash Cards:**

They consist of a series of cards, approximately 10 x 12 inches – each with an illustration pertaining to a story or talk to be given. Each card is "flashed" or displayed before a group as the talk is in progress. The message on the cards must be brief and to the point.

They are pictures arranged in sequence, which illustrate a story support the cards in front of the chest and practice in order to make the teaching effective. Use a Pointer so that the picture is not covered by your hand.

(ii) Two-way or Socratic Methods:

- Group discussion
- Panel Discussion
- Symposium
- Workshop
- Role playing
- Demonstration

1. **Group Discussion:**

Group discussion is considered a very effective method of health teaching. It is a tow-way teaching method. People learn by exchanging their views and experiences.

To be effective, the group should comprise not less than 6, and not more than 12 people.

There should be a group leader who initiates the subject, helps the discussion in the proper manner, prevents side-conversations, encourages everyone to participate and sums up the discussion in the end.

The proceedings of the group discussion are recorded by a "recorder", who prepares a report on the subject and agreements reached.

2. **Panel Discussion:**

Panel discussion is a novel method of health education. The success of the panel depends upon the Chairman.

The Panel consists of a Chairman or Moderator, and 4 to 8 speakers.

The Panel sits and discusses a given problem in front of a group or audience.

The Chairman opens the meeting, welcomes the group and introduces the panel speakers who are experts on the subject.

He introduces the topic briefly and invites the panel speakers to
