Radio	■ Range of intended audiences with known listening preference ■ Opportunity for direct intended audience involvement ■ Distribution is Expensive	■ Reaches Smaller intended audiences than T.V ■ Public service ads run infrequently and at low listening times ■ Many stations have limited formats that may not be conducive to health messages ■ Difficult for intended audiences to retain or pass on material
TV	■ Reaches potentially the largest & widest range ■ Combination of Audio visual is effective in emotional appeals and demonstration of behaviours ■ Can reach low – income audience ■ Specific programmes can reach specific intended audience ■ Opportunity for direct intended and audience involvement	■ Advertisement is expensive to produce ■ Running infrequently and in low viewing times ■ Message can be observed by commercial culture ■ Some stations reach small intended audience ■ Promotion can result in huge demand ■ Difficult to retain or pass on materials

10.5 Role and Responsibility of health educator

The seven areas of responsibilities which are shown below.

Responsibility I: Assessing Individual and Community Needs for Health Education

- Provides the foundation for program planning
- Determines what health problems might exist in any given groups
- Includes determination of community resources available to address the problem
- Community Empowerment encourages the population to take ownership of their health problems
- Includes careful data collection and analysis
