was accomplished through both yoga and medicine. Thus *siddhars* (practitioners of Siddha) became the symbols of psychosomatic perfection and so the Siddha medicine became a combination of medicine and yoga.

The tantrik *siddhi* was thought of in different forms such as *janmaja* (due to birth), *osadhija* (due to some medical elixirs), *mantraja* (due to magical incantations), *tapoja* (due to penance) and *samadhija* (due to meditation). The tantriks endeavoured to attain the Siddha by several means, one of them was through the use of certain compositions of compounds of mercury, sulphur, mica and several other metallic substances.
