Well known recruiters include:

- **Government hospitals**
- **Private hospitals**
- **Primary health centres**
- **Community health centres**
- **NGOs**
- **Rehabilitation clinics**
- **Training Colleges/Institutes**

After 12th Commerce or Arts stream schooling, students are eligible to pursue two Diploma certificate nursing courses. They are-

1. ANM (Auxiliary Nursing and Midwifery)
2. GNM (General Nursing and Midwifery)

There exist many institutes in India (recognized by the Indian Nursing Council), which accept Arts/Commerce stream students to pursue the above mentioned courses.

To get more details about ANM (2 years course) and GNM (3½ years course) courses, you may click on the links provided above. I've written detailed articles about both these nursing courses. Details covered include eligibility criteria, course details, admission process, syllabus, career prospects and career paths available.

Note: The above mentioned programs are Diploma courses. I'll provide you the career path to follow, in order to get a Bachelor's Degree in Nursing.

GNM would be the best course among the 2 nursing courses mentioned above. After completing GNM course and registering as an R.N.R.M., one may pursue B.Sc. Nursing (Post Basic) course (2 or 3 years long). This career path will help one get a Bachelor of Science Degree in Nursing. This, in turn, will improve one's chances of landing a good job! After completing B.Sc. Nursing Post Basic program, one may then go for advanced courses like M.Sc. Nursing, PG Diploma in Nursing, M.Phil. Nursing and Ph.D program.

If you choose to pursue ANM, you'll have to complete the course and then go for GNM course. After completing GNM, you'll have to follow the career path mentioned above and gain a Bachelor of Science Degree in Nursing! After completing B.Sc. Nursing Post Basic program, one may then go for advanced courses like M.Sc. Nursing, PG Diploma in Nursing, M.Phil. Nursing and PhD program
