6.15 Enhancing a Document

6.15.1 Inserting pictures

OpenOffice Writer has the ability to insert and edit images in a more simple way. The picture gallery of the Writer consists of a collection of images from which the desired image can be selected and inserted into the document. To insert an image from a file, the steps are as follows:

- Place the insertion pointer where you want the image to appear
- Select ***Insert → Picture → From file***
- The **insert picture dialog box** appears where the picture gallery opens from which the desired picture can be selected.
- If the picture is not in the gallery, then browse the pictures from the folder, choose the desired picture.
- Click on the **Open** button
- The selected picture is inserted into the document

6.15.2 Inserting Special Characters

Many symbols which are used in a mathematical equation like alpha(∞), beta(β), pi(π) etc., are not available on the standard keyboard. However, representing these characters are very much essential in mathematical equations. To insert such characters, the procedure given below is followed:

- Place the insertion pointer in your document where you want the character to appear
- Click on ***Insert → Special Characters***
- The **Special Characters dialog box** appears as shown in Figure 6.41 from which the desired symbol can be selected by clicking on the character.
- As you select each character, it is shown on the lower right, along with the numerical code for that character
- If you do not find a particular special character you want, try changing the font selection.
- Click the **OK** button and the character is inserted at the current location.

The insert special characters dialog box is displayed in Figure 6.40.
