the Drawing toolbar. To use the drawing tools repeatedly, you can move this toolbar to a convenient place on the window. The drawing tool bar can be obtained by clicking ***View*** → ***Toolbars*** → ***Drawing*** as displayed on Figure 6.41.

Figure 6.41 Drawing toolbar

To use a drawing tool, the steps are as given below:

- Click in the document where you want the drawing to be displayed.
- Select the **tool** from the **Drawing toolbar** as shown in Figure 6.44 The mouse pointer changes to a **cross-hair pointer**.
- Move the **cross-hair pointer** to the place in the document where you want the drawing to appear and then click-and-drag to create the drawing object.
- Release the mouse button. The selected drawing function remains active, so you can draw another object of the same type.
- To cancel the selected drawing function, press the **Esc** key or click on the **Select icon** on the **Drawing toolbar.**
- You can now change the properties (fill color, line type and width, change Anchor, and others) of the drawing object using either the **Drawing Object Properties** toolbar or the choices in the dialog box.

6.15.4 Inserting AutoText

AutoText allows you to assign text, tables, graphics and other items to a key or key combination. For example, rather than typing "TamilNadu" every time you use that phrase, you might just type **"tn"** and press **F3.** You can also save a formatted Tip as AutoText and then insert a copy by typing "tip" and pressing F3.

To assign AutoText shortcut to some text, the steps are as follows :

1. Type the text into your document.
2. Select the text so that it is highlighted.
3. Select ***Edit*** → ***AutoText*** (or press ***Ctrl+F3).***
4. Enter a name for your shortcut. Writer will suggest a one-letter shortcut, which you can change.
5. Click on the inverted arrow of the ***AutoTex***t button on the right and select ***New (text only)*** from the menu.
6. Click **Close** to return to your document.
7. Once the entry is created, to insert the auto text into the document, place the cursor where the text is to be inserted and click ***Ctrl+F3,***
8. Select the name from the list of entries and click **Insert** button.
9. The auto text is inserted into your text.

Note

If the only option under the AutoText button is Import, either you have not entered a name for your AutoText or there is no text selected in the document.
