Figure 7.68 Sort by selection

are a feature for displaying and browsing a selected list or subset of data from a worksheet. The visible records satisfy the condition that the user sets. Those that do not satisfy the condition are only hidden, but not removed.

OpenOffice Calc allows three types of filters. They are ***AutoFilter, Standard Filter*** and ***Advanced Filter***.

(1) Auto Filter:

Auto Filter applies a drop-down list box to each field (columns) filled with similar data available in that field. Using the list box item, you can filter the data that matches the criteria of the data concerned.

Using Auto Filter:

- Click Auto Filter icon available on the "Standard tools bar" (or) click **Data → Filter → Auto Filter**
