select it. The preview of the same will be shown in the preview pane.

5. <Original> is an empty background. You can also select among three predefined Presentations: <Original>, Introducing a New Product, and Recommendation of a Strategy. (Figure 8.6).

6. Click an item to see a preview of the slide design in the Preview window.

7. Select how the presentation will be used under **Select an output medium**. Generally, presentations are created for computer screen display, so select Screen option. (Figure 8.6).

8. Click Next. The Presentation Wizard step 3 appears (Figure 8.7). In this step, you can choose the desired slide transition from the **Effect** drop-down menu. Select the desired **speed** for the transition between the different slides in the presentation from the Speed drop-down menu. Medium is a good choice. Click Create. A new presentation is created.
