Welcome to HTML

****

Browser first tries to find out whether the font-name in the list is supported or not. If the first font is not supported by the browser, then it displays the text in second font, otherwise it will display next one. If no font in the list is supported, then the browser display the in the default font.

In the above code, consider the font names "Bookman old style1" and "Broadway1" are not supported by any browser. (Because, the names has been changed). So, the text "Welcome to HTML" will be displayed in "Forte" style. If your browser not supported "Forte" font, the text will be displayed in "Arial" font, otherwise the browser shows the text as in default font setting. In the case of Internet explorer, the "Times New Roman" is the default font to display the contents.

11.3 Section Break

The **<hr>** (Horizontal Rules) tag, which is known as "Thematic Breaks" separate sections of an HTML document visually. It produces a horizontal line spread across the width of the browser. This is an empty tag, which means the tag has no closing tag.
