Output will be:

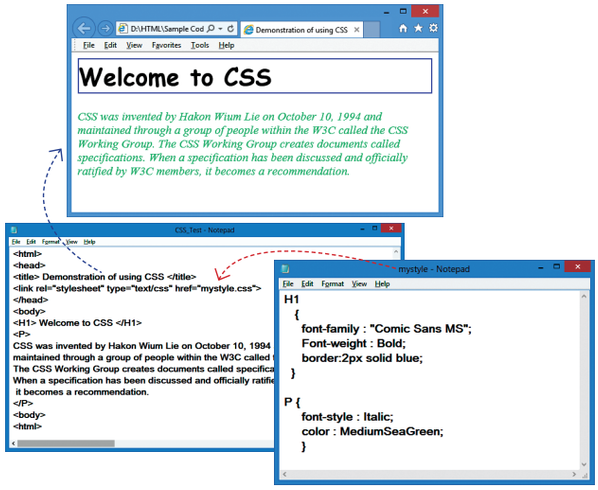

Illustration 13.3 Changing background color of browser using CSS

--- Back_Color.css ---

```
body
{
 background-color : pink;
}
```

--- Background_CSS.htm ---

```
<html>
        <head>
                <title> Changing Background using CSS </title>
                <link rel = "stylesheet"  type="text/css"  href="Body_Color.css">
        </head>
        <body>
                <H1> Welcome to CSS </H1>
        </body>
</html>
```

CSS Comments

Many times, you may need to put additional comments in your style sheet blocks. So, it is very easy to comment any part in style sheet. You can simplyput your comments inside **/*.....this is a comment in style sheet.....*/.**

CSS - Workshop

- Develop a web page about your school with CSS.
- Develop a web page describing about your district. Use CSS to format HTML structural tags.
