- **lower case.** (Small letters)

This can be done by:

- Select the required text to change case
- Select **Format → Change case.**
- **Select the required options**

6.7.3 Highlighting text

Highlighting is used to draw attention to important information in text. Highlighting is beneficial because it first asks the reader to pick out the important parts, and then gives an effective way to review that information later.

Highlighting can be applied by selecting the text and click **Highlighting** icon ab, the color palette is displayed, select the required color, and the text is highlighted. Highlighting can be removed by selecting the text and click **No Fill** from the color palette.

Highlighting is to draw attention to important or key points in a document for easy reference by marking it in a different color.

6.7.4 Clearing the formatting

To clear the formatting applied to the text

- Select the entire document by ***Ctrl + A*** or ***Edit →Select All***
- Clear applied formatting by ***Ctrl + M***

6.8 Paragraph formatting

6.8.1 Paragraph Alignment

A paragraph is any text that ends with a hard return. A hard return is accomplished anytime you press the **Enter** key. Paragraph Alignment or justification refers to the way in which the lines of a paragraph are aligned. Paragraph alignment lets you to control the appearance of individual paragraphs. There are **four** types of alignment available in Open Office Writer - **left** - alignment, **Right** - alignment, **Center** - alignment, and **Justify** - alignment.

Left-alignment - A paragraph's text is LEFT aligned when it is aligned evenly along the left margin and uneven along the right margin. This is the default alignment when a paragraph is typed.

Right-alignment - A paragraph's text is RIGHT aligned when it is aligned evenly along the right margin and uneven along the left margin.

Center-alignment- All the lines in the paragraph are aligned to the center of the page size.

Justified-alignment - All the lines in the paragraph, are arranged evenly both on the left and right margins. This is achieved in Writer by automatically inserting additional space between the words.

Paragraph formatting can be applied by ***Format → Paragraph,*** the paragraph dialog box appears as displayed in Figure 6.21.
