Introduction

The Constitution is the fundamental law of a country which reflects the fundamental principles on which the government of that country is based. It is the vehicle of a Nation's progress. The concept of constitution was first originated in U.S.A.

1.1 The Need for a Constitution

All Democratic countries have a constitution that governs them. A constitution puts down certain principles that form the basis of any kind of a state that we as citizens, desire to live in. A constitution tells us the fundamental nature of our society.

1.2 Making of Indian Constitution

The Constitution of India was framed by a Constituent Assembly setup under the Cabinet Mission Plan, 1946. The Assembly consisted of 389 members representing Provinces (292), States (93), the Chief Commissioner's provinces (3) and Baluchistan (1). The Assembly held its first meeting on December 9, 1946. Dr. Sachchidananda Sinha, the oldest member, was elected as the temporary President of the Assembly. While the work was in progress, Dr. Sahchidananda Sinha died. Dr. Rajendra Prasad was elected as the President of the Assembly. Similarly, both H.C. Mukherjee and V.T. Krishnamachari were elected as the Vice-Presidents of the Assembly. The Assembly met for 11 sessions along with 166 days of meetings. During the discussion, 2473 amendments were presented. Some of them were accepted. The Assembly worked through various committees and the draft of the Constitution was prepared by the Drafting Committee under the chairmanship of Dr. B.R. Ambedkar. He is recognised as the 'Father of the Constitution of India'.
