- Globalization rapidly increase better trade so that more people are employed.
- Introduced new technologies and new scientific research patterns.
- Globalization increasing the GDP of a country.
- It helps to increase in free flow of goods and also to increase Foreign Direct Investment.

Negative Impact

- Too much flow of capital amongst countries, introduces unfair and immoral distributors of Income.
- Another fear is losing national integrity. Because of too much exchange of trade, independent domestic policies are lost.
- Rapid growth of the economy has required a major infrastructure and resource extraction. This increases negative ecological and Social costs.
- Rapidly increases in exploitation of natural resources to earn foreign exchange.
- Environmental standards and regulations have been relaxed.

Challenges of Globalization

- The benefits of globalization extend to all countries that will not happen automatically.
- The fear that globalization leads to instability in the developing world.
- The industrial world that increased global competition will lead in race to the bottom in wages, labour right, and employment practice.
- It leads to global inbalance.
- Globalization has led to an increase in activities such as child labor and slavery.
- People started consuming more junk food. This caused, the degradation of health and spread of diseases.
- Globalization has led to environmental degradation.

SUMMARY

- Globalization is the integration of country with the world economy.
- The three stages of Globalization : • Archiac Globalization • Proto Globalization • Modern Globalization.
- LPG – Liberalization, Privatization, and Globalization
- Multi National Company is a corporate organization which owns or control production of goods and services in at least one country to other than its home country.
