From this table, one may get information relating to the distribution of students according marks, gender and geographical location from where they hail.

3.5 Components of a Table

Generally a table should be comprised of the following components:

- Table number and title
- Stub (the headings of rows)
- Caption (the headings of columns)
- Body of the table
- Foot notes
- Sources of data.

(i) **Table Number and Title:** Each table should be identified by a number given at the top. It should also have an appropriate short and self explanatory title indicating what exactly the table presents.

(ii) **Stub:** Stubs stand for brief and self explanatory headings of rows.

(iii) **Caption:** Caption stands for brief and self explanatory headings of columns. It may involve headings and sub-headings as well.

(iv) **Body of the Table:** The body of the table should provide the numerical information in different cells.
