(iv) What is the percentage increase from 2014 to 2015?

Year	Production Cost
2010	55
2011	40
2012	30
2013	25
2014	35
2015	70

Solution:

(i) We represent the above data by simple bar diagram in the following manner:

Step-1: Years are marked along the *X*-axis and labelled as 'Year'.

Step-2: Values of Production Cost are marked along the *Y*-axis and labelled as 'Production Cost (in lakhs of ₹).

Step-3: Vertical rectangular bars are erected on the years marked and whose height is proportional to the magnitude of the respective production cost.

Step-4: Vertical bars are filled with the same colours.

The simple bar diagram is presented in Fig.4.1.

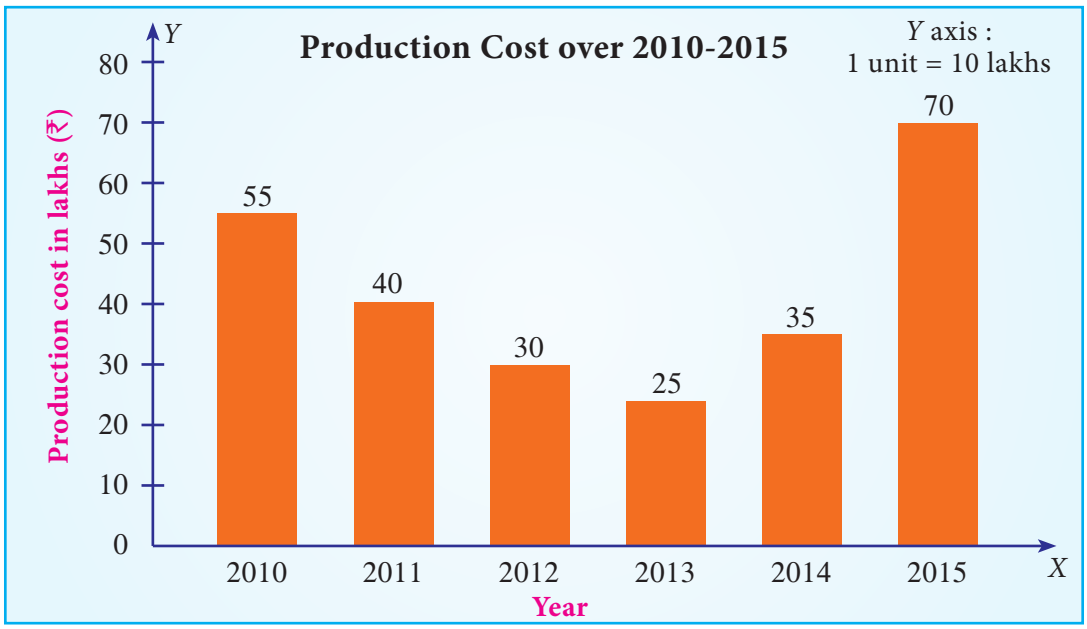

Fig 4.1

(ii) (a) The maximum production cost of the company was in the year 2015.

(b) The minimum production cost of the company was in the year 2013.
