Observe the table given above and answer the following questions.

1. I am used for breathing, without me you cannot live. Write my name and symbol.

   _____.

2. It is used in filling the balloons. It is a gas, identify it. What is its mass number?

   _____.

3. Name the element present in banana. What is its atomic number?

   _____.

4. I am found in crackers. How many protons do I have?

   _____.

5. I am the most valuable element. Find who am I. Can you say my mass number?

   _____.

4.4 Valency

When we shake hands with others, we can either shake hand with one persons using one hand or shake hand with two persons using both our hands. If we have more hands, we can shake hands with more persons. In the same manner atoms can share either one electron or two or three or four electrons and some cannot share any electron. This property is called valency.
