2.1 Key Board:

The First Attempt ever made to create and patent a typewriter is by Mr. Jdur Henry Mill. QWERTY layoutwas established by Sholes & Glidden typewriters in 1874, which was the standardized keyboard layout for English language and also for computer keyboard. It was designed to reduce the clashing of type bars by placing commonly used combinations of letters.

2.1 Kinds of Keyboard:

Keyboard Adopting Fingering Posture in the Right Way
