2.1.5. Demerits of Automation:

1. Automation results in technological unemployment.

2. Automation requires huge investment. Small Business units cannot afford it.

3. Automated plant cannot be introduced in industries where changes are rapid because of changes in tastes of customers.

4. Since various operations are interdependent, failure in one part of the automatic plant may shut down the entire plant.

2.2. Modern Equipment Used in an Office:

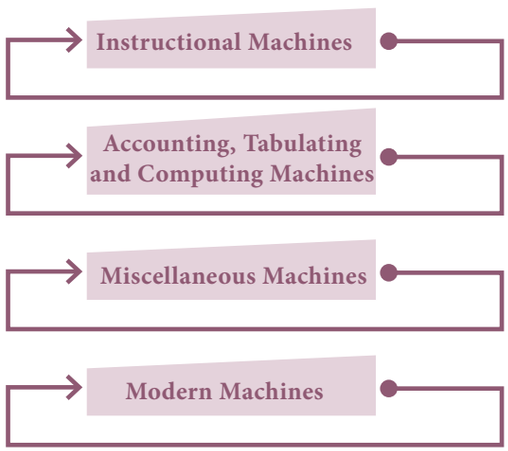

Fig. 2.1. Classifications of Equipment

I. Instructional Machines:

1. Telephone:

Telephone becomes an important instrument in modern business houses. With the help of this facility, a firm can have quick and prompt communication with others. Now-a-days it is impossible to imagine the office without a telephone. It is the most convenient means of oral communication. It is widely used for internal as well as external communication. According to distance and area, telephone calls are classified as local calls, trunk calls and overseas calls.

Fig. 2.2. Telephone

The following are some of the internal and external services available to telephone users.

(a) Direct Link

(b) Direct Link with Extension

(c) Private Branch Exchange (PBX) System

(d) Private Automatic Branch Exchange (PABX) System

(e) Electronic Private Automatic Branch Exchange (EPABX)

(f) Intercom

2. Mobile Phone:

A mobile phone is a wireless device which can be used to make calls and send text messages. As the technology changes rapidly; nowadays mobile phones are bundled with many additional features, such as web browsers, games, cameras,
