3. Pen Drive:

A pen drive is small storage device shaped like a pen with built-in data storage that connects to a computer by a USB Port. (Universal Serial Bus- It is the most popular connection used to connect a computer to devices).

4. Projector:

Projectors can be used for delivering lectures and presentations to large groups as well as watching movies and other videos at a backyard home theatre. They can be found in a variety of environments, including classrooms, conference rooms and in homes and yards.

5. LED (Light Emitting Diode) Projectors:

Instead of a traditional halogen lamp, they use light-emitting diodes, which are more environment friendly and long lasting. LED projectors use either DLP technology, replacing the colour wheel and white-light lamp with red, blue, green LEDs or LCOS technology which is found in projectors.
