4. **Filing Cabinet:** A filing cabinet is a piece of office furniture usually used to store paper documents in file folders. The two most common forms of filing cabinets are vertical files and lateral files. A vertical file cabinet has drawers that extend from the short side of the cabinet. A lateral file cabinet has drawers that extend from the long side of the cabinet.

5. **Modular Furniture:** Modular furniture is pre-made or readymade furniture which can be used according to the need and room spacing. It is easy to install and dismantle according to need. It gives modern look to office. It is also available in various colours and designs. There are various types of modular furniture

   i. Two in one furniture. This type of furniture has two purposes.

   ii. Three in one furniture. This type of furniture has three purposes.

2.4.4 Principles in Selecting the Office Furniture:

Following are some of the principles to be considered while selecting office furniture.

1. Suitability: The selected furniture must be suitable for the job. The working area of the table should be sufficient. It must also have space to keep files (incoming and outgoing), stationery, etc.

2. Comfort: The seat of the workers, shape of the chairs and tables must be so designed that the workers would not feel any fatigue while doing their jobs. This will result in efficiency, in turn, more output. The equipment, forms, stationery, etc., must be within easy reach. Those items frequently used, should be placed at hand.

3. Design: Prior to purchase, one must have an idea of the size, height and design of the furniture. For example, the size, height, design, number of drawers of the table should be decided on the basis of work done on it.

There are many designs of tables available in the market. One must decide whether the top of the table should be of polished wood or glass plate or laminate
