surface. The decision regarding the choice of the furniture, say table, desk, chairs, etc. as to its size and design depends on the officer who uses it.

4. Durability: Metal furniture is more costly than wooden furniture. But the maintenance charges of wooden furniture are more than those of the metal furniture. Nowadays, metal i.e., steel furniture is more popular, because it is more durable than wooden furniture. Moreover, steel furniture is safe against fire, burglary etc.

5. Weight: As the business expands, the size of the office also increases. The existing layout of the furniture has to be rearranged according to the required comfort. It may become often necessary to move the furniture from one place to another. Therefore, it is better to have light weight furniture. If the furniture is light, there will be less breakage and wear and tear when the furniture is shifted.

6. Space saving: Furniture which would occupy minimum space should be selected. The decision regarding the design of the furniture should depend upon the space available in the office and the number of persons who work there.

7. Cost: The cost of the furniture should not be neglected when selecting it. It should be kept within the financial limit.

8. Hygiene: The outlay of the furniture should be so made that it will be easy to clean the furniture as well as the floor underneath it.

9. Usefulness: The furniture should be selected according to the nature of the particular job. When it is not needed for the department, it can be easily transferred to another department, where it may be useful.

10. Appearance: Furniture should have a good appearance and be pleasing to the eyes. This will impress the workers and visitors. Wooden furniture looks attractive. Furniture of high quality wood is durable. It has a warm look and gives comfort to the users. Many varieties and designs of furniture can easily be made.

11. Multi-Purpose Uses: Furniture should be adaptable to multi-purpose uses, wherever possible. This permits standardization in the purchase of multi-purpose desks and enables office workers to perform more than one type of work with the help of same kind of furniture.

Points to be Remembered:

- Automation may be described as usage of advanced technology with the help of specific devices of communication and control in self-regulation without human intervention.
- Objective of Automation are Labour saving, Time saving, Accuracy, Elimination of Monotony, Lesser frauds, Storage of facts and data.
- Modern equipment used in office:

  Instructional Machines: Telephone, Mobile Phone, Dictation machine
