10.	*Laptop : L shape design. It is a small portable computer.*
11.	*Pen drive : It is small storage device shaped like a pen.*
12.	*Projector : It is used to project rays of light, especially an apparatus with a system of lenses for projecting slides or film on to a screen.*
13.	*LED : Light emitting diode (a semiconductor diode which glows when a voltage is applied).*
14.	*DLP technology : Digital light processing (DLP) is a display device based on optical micro-electro-mechanical technology.*
15.	*LCOS : Liquid crystal on silicon is a miniaturized reflective active-matrix liquid-crystal display or micro display.*
16.	*LCD : Liquid crystal display. It is activated by electric current.*
17.	*Bio-metric : A bio-metric device is a security identification and authentication device.*
18.	*CCTV : Closed circuit TV. A self-contained surveillance system.*
19.	*Fax : An exact copy of a document made by electronic scanning and transmitted as data by telecommunication links.*
