equipment, improper and careless handling of machine etc. Hence adequate precautionary steps to prevent accidents should be taken in the office. The employees should also be made aware of the safety arrangements and should be advised to handle the office machinery and equipment carefully. Office machines and equipments should be placed on firm foundation and proper fitting of desk and file drawers should be ensured.

(iii) **Provision of Safe Working Place:** Arrangements should be made to provide a safe working place for the employees. Shape and size of the office rooms, location and size of doors, gangways, etc., must be such as to eliminate hazards of accident. Office floor should be covered with nonslippery material, lighting of stairways, gangways, etc should be adequate and desks and chairs should be free of sharp edges.

(iv) **Provision of First Aid Service:** To ensure immediate treatment to injuries, there should be a first aid box in every office with sufficient medicines. These should be regularly inspected to ensure that they are stocked with all necessary materials.

(v) **Safety Education and Training of Employees:** Each employee should be made thoroughly aware of the dangers of his job. Training should be given to employees in the correct and safe way of doing the job and trained in first aid and fire fighting work. Safety regulations should be carefully framed and strictly enforced.

Points to be remembered:

Office accommodation refers to the place of work and its surroundings which are important that affect the efficiency of the employees to a large extent.

Principles of Office Accommodation

1. Convenient Location
2. Sufficient space and scope for expansion.
3. Provision for the convenience and amenities for the well-being of the staff
4. Service facilities should be available in the office and near the office premises.

Factors to be Considered While Selecting Office Accommodation

1. Locating the office building
2. Securing the required office accommodation
3. Size of office accommodation
4. Lighting and ventilation of the space
5. Layout and facilities for office organization
