stationery of superior quality will be profitable since it may go for double the time of ordinary quality and incurred low expenses.

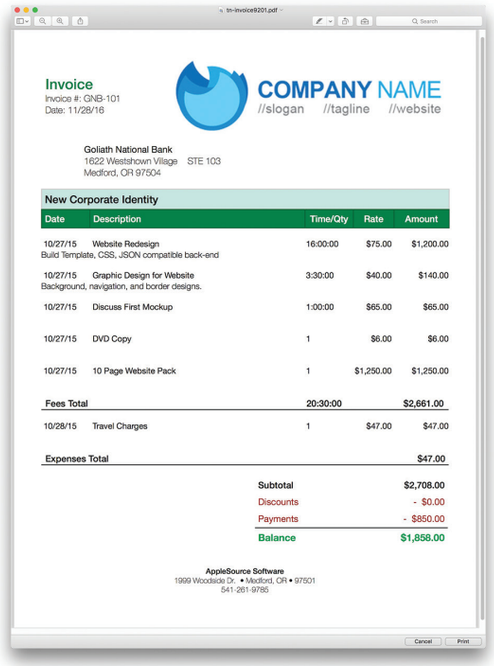

4.3 Forms:

An 'Office form' may be defined as a printed sheet of paper or card with marked headings for entries to be made in hand or by typing. Forms are the basic tools for all types of office work. It is through the office forms all essential information required for efficient conduct of business can be received, recorded, arranged and transmitted in a systematic manner. Generally, the data may be collected from outside sources through bills, quotations, orders, statistical data, return etc.

The ready-made forms help the employees to collect the data without much difficulty. These forms reduce clerical work and collects only required information instead of writing down the whole matter. Hence, the form is printed or cyclostyled format for future use. Forms may be filled in ink or with a typewriter.

4.3.1 Meaning of Office Form:

A form is printed piece of paper containing some information with blank spaces left for the entry of required information briefly by the persons using it. It is called the raw material for office work. Common examples of office forms are invoices, credit notes, debit notes etc.
