INTRODUCTION TO FASHION

UARSQK

LEARNING OBJECTIVES

- To understand the basic concepts and terms used in the field of fashion.
- To gain knowledge about the theories of fashion.

15.1 INTRODUCTION

The term fashion is a bussing word across the world. Every individual irrespective of age and sex want to look fashionable. Fashion can be described as an art since it requires creativity. It includes all types of clothing, hair styling and accessories. In fashion industry different terminologies are used to differentiate various styles and functions. Knowledge about these terms will help one to understand the concepts of fashion. Fashion is both arts and science. Unlike many other industries fashion is based on innovation, creative ideas and thinking ahead. Fashion can be described as private because it is the reflection of one's physical, psychological and social status. On the other hand it can also be described as public because once a style is introduced everyone starts using this style.

DO YOU KNOW?

What is House of Worth?

The House of Worth was a French house of high fashion that specialized in haute couture, ready-to-wear clothes, and perfumes. The historic house was founded in 1858 by designer Charles Frederick Worth

15.2 TERMINOLOGIES OF FASHION

Silhouette

The silhouette is an outline or contour of a garment. Shape of the Silhouettes will vary when there is a change in fashion. There are three basic forms of silhouettes;

- Tubular
- Bell
- Back fullness
