ACTIVITIES FOR THE TEACHER

- To show different types of yarns.
- To arrange for field visit to spinning mills.

ACTIVITIES FOR STUDENTS

- To ask students to collect different types of yarns.
- To enthuse students to make critical analysis about yarn.

GLOSSARY

1.	Yarn	Twisting of fibres together to form a thread.
2.	Spun yarn	Made using short fibres.
3.	Filament yarn	Made using long fibres.
4.	Balanced yarn	Made using evenly twisted yarn.
5.	Unbalanced yarn	Made using unevenly twisted yarn.
6.	Single yarn	Directly twisted from fibres.
7.	Ply yarn	Two or more single yarns are twisted.
8.	Cord yarn	Two or more ply yarns are twisted.
9.	Yarn numbering	Yarn numbering systems used to express a relationship between a unit length and weight of yarns.
10.	Spinning	Fibres are drawn and twisted together to form a yarn.
