What is Free-motion machine embroidery?

Free-motion machine embroidery creates designs by using a basic zigzag sewing machine. As this type of machine is used primarily for tailoring, it lacks the automated features of a specialized machine.

Machine Embroidery

7.4.8 Magic Chain Stitch

Description

- This is a variation of chain stitch.
- Two coloured threads are used while stitching.
- Chain stitches are created by winding alternate colour threads. (Figure 7.12).

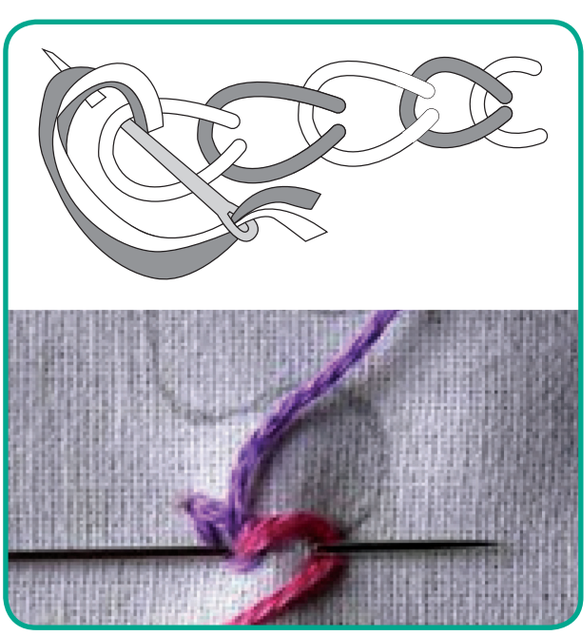

Figure 7.12 Magic Chain Stitch

7.4.9 Blanket Stitch

Description

- This stitch is used to finish the blanket edges.
- It secures the edges and is stitched from left to right or from right to left .

Method

- Take needle at 1 and insert 2.
- Lay thread parallel to point 1.
- Insert needle at 2 and take out at 3.
- Loop the thread around needle to from a stitch (Figure 7.13).

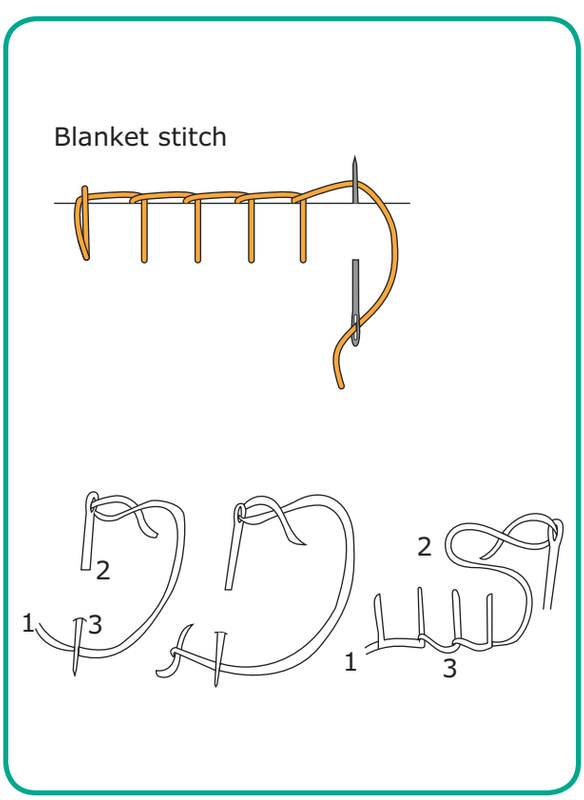

Figure 7.13 Blanket Stitch

7.4.10 Satin Stitch

Description

- Satin stitch is a filling stitch.
- It is used to cover small space.
- This is a straight and flat stitch.
