7.5 SUMMARY

Basic stitches are used as a foundation prior to garment construction. These are used to enhance the functionality and decoration of the garments. These basic stitches are used as guidelines while sewing. Embroidery stitches add interesting effect on garments. They can be applied on all types of kids, children, women and men garments.

POINTS TO REMEMBER

- Basic stitches are of two types namely constructive and decorative.
- Constructive stitches are used as guidelines prior to sewing.
- Decorative stitches are used effectively to add beauty to the garments.

ACTIVITIES FOR THE TEACHER

- To teach various basic and embroidery stitches.
- To make the students to prepare a design album for embroidery.

ACTIVITIES FOR STUDENTS

- To prepare a motif for each embroidery stitch.
- To enthuse students to make a sample with embroidery stitches.
