1.3.4 Human Development

Human development deals with the development of a child from conception to old age and the developmental task pertaining to each stage in life. Physical, motor, emotional, language, cognitive and social development of human beings are also included in this. Behavioural problems of children, special or differently abled children and specific problems and issues that hinder the development of human beings are also dealt. Geriatrics is also a part of the study.

1.3.5 Communication and Extension

Extension education includes the study of programme planning, preparation of audio visual aids, social work, applied nutrition and methods of communicating with the society.

Group discussion

1.4 RELEVANCE OF HOME SCIENCE IN IMPROVING QUALITY OF LIFE

The study of Home Science improves the quality of life of people through the following ways:

- Helps people lead a more satisfying personal, family and community life through the dissemination of knowledge and appreciation of cultural and spiritual values.
- Offers maximum opportunity to express one's ability to understand and manage their resources and develop leadership qualities.
- Develops qualities needed for responsible citizenship.
- Helps student to recognise the importance of food in ensuring health.
- Teaches about food safety that needs to be adapted right from farm to fork,
- Imparts knowledge about healthy food preparation techniques.
- Provides practical tips in preparing a balanced diet.
- Enables one to make good decisions,
