develop, they float shares to the public. When a person buys shares she becomes part owner of the company. She will then share both profit and loss of the company. The profits are called dividends.

- A person can get high rate of interest, if the company is making profits.
- Dividends are tax-free.
- There is a risk of losing money, in case the company goes in a loss.
- Investor may not be able to find a suitable buyer for his/her shares or may not get a good price.

Debentures

A debenture is an instrument of debt. Debenture holder is a creditor to the company who loans funds to the company for a period of time against a fixed rate of interest.

7.9.1.6 Units

Mutual fund is a public and private sector financial institution which offers various schemes for attracting investments from public. It issues units to the investors (unit holders) and invests the collected amount in securities. Each unit is of ₹ 10/-.

Profit and losses are shared by the investors in proportion to their investment. Mutual fund is required to be registered under SEBI (Securities and Exchange Board of India), before it can collect funds from public. SEBI protects the interest of investors and regulates the securities market.

- Open end fund-scheme is available for subscription and repurchase on a continuous basis. These do not have a stipulated maturity date.
