Colourful rainbow of fruits and vegetables presents you with following health benefits.

Balanced diet can be defined as one which contains different types of foods in such quantities and proportions that the need for all the nutrients are adequately met and a small extra provision is made for nutrients as a margin of safety.

REAL FOOD IS THE KEY TO HEALTH

What do we mean by real food?

Eating fruits, vegetables and whole grains that haven't been overly processed will keep you healthy. By eating whole food, you can avoid over-processed foods that are packed with sugar, sodium, carbohydrates and fats.

Millets

Millets are small – seeded grasses that are hard and grow well in dry zones as rain-fed crops under marginal conditions of soil fertility and moisture. Millets are one of the oldest foods known to humans and possibly the first cereal grains to be used for domestic purposes. They are highly nutritious, gluten free. Hence they are soothing and easy to digest. They are considered to be the least allergic and most
