Minor Equipments

Food processor (mixer)

Refrigerator

Oven Cum Toaster and Grill

These major equipment are very essential for daily use.

The refrigerator is used for storing food and keeping it fresh free from spoilage. These foods include vegetables, fruits, eggs, milk and milk products and leftover cooked food also. The freezer helps to store and preserve foods, especially raw food items like non-vegetarian foods such as fish, meat and chicken and their products at a much lower temperature (at zero degrees centigrade and below).
