ICT CORNER

Energy Skate

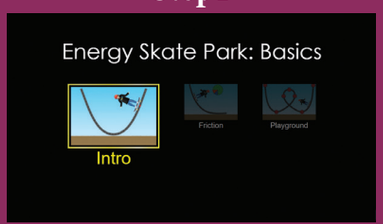

Through this activity you will understand about potential energy and kinetic energy

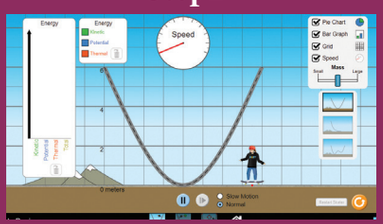

STEPS:

- Open the browser and type the given URL to open the PhET simulation on work power and energy. Click OK to open the activity.
- Select the height to observe the change in the kinetic energy, potential energy.
- Also observe the change by altering the mass.
- You can also create your own optional friction or playground to observe the change in potential energy and kinetic energy.
