disturb animals. Birds have to communicate (talk) louder so that, they can hear each other in noisy areas. Even underwater noise pollution from ships, can make whales lose their way as they use sounds to navigate.

### How do we reduce noise pollution?

1. Turn off your electronics when you do not use them.
2. Lower the volume when you watch TV or listen to music.
3. Remind drivers not to use the horn too much.
4. Avoid fireworks.
5. Speak, do not shout.

### Classroom Exercise

Identify who am I?

1. I am the type of pollution caused by burning of fossil fuels like petrol or coal and the smoke of burning garbage. I float around and cause breathing problems. I am _____ pollution.
2. I am the type of pollution caused by loud sounds and I can cause serious damage to your ears and also affect sleep. In India, I am mainly caused by loudspeakers and honking of air horns of cars. I am _____ pollution.
3. I flow from homes and farms into rivers and lakes. I kill fish and make water unfit for drinking. I am _____ pollution.
4. I am the type of pollution caused by using too much chemical fertilizers and pesticides by farmers. I lower the quality of soil and even move chemicals into plant parts which are eaten by people. I am _____ pollution.

## Points to remember

- ❖ Living (biotic) and non-living (abiotic) components interact with one another.
- ❖ There are two types of ecosystems terrestrial (on land) and aquatic (in water).
- ❖ The feeding relationship in an ecosystem is called a food chain.
- ❖ Biodegradable and non-biodegradable waste should be kept separate
- ❖ The 3R's are in a certain order: First reduce, then reuse and finally recycle.
- ❖ Waste should never be burned as it causes air and soil pollution.
- ❖ Pollution occurs when the environment gets contaminated by wastes, chemicals and harmful substances.
- ❖ Major types of pollution are four: air pollution, water pollution, land pollution, and noise pollution.
- ❖ There are many small habits, any student can practice to reduce pollution, manage waste correctly and protect the environment.
