Try these

(c)

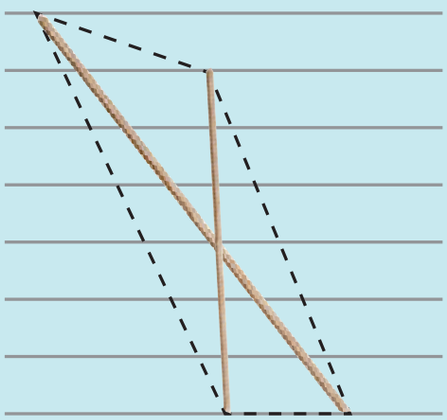

Two unequal sticks. Placed intersecting at mid points perpendicularly.

(d)

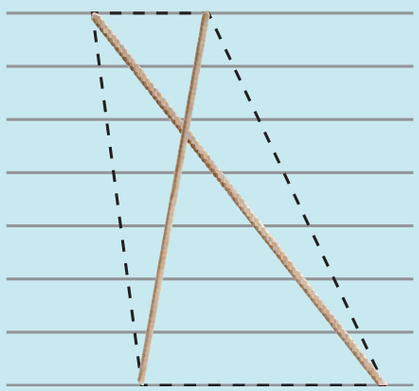

Two equal sticks. Placed intersecting at mid points perpendicularly.

(e)

Two unequal sticks. Tops are not on the same ruling. Bottoms on the same ruling. Not cutting at the mid point of either.

(f)

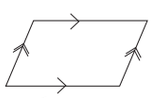

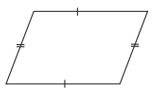

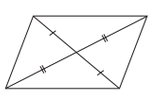

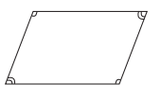

Two unequal sticks. Tops on the same ruling. Bottoms on the same ruling. Not necessarily cutting at the mid point of either.

5.13 Construction of a Parallelogram

Let us construct a parallelogram with the given measurements

1. Two adjacent sides and one angle.
2. Two adjacent sides and one diagonal.
3. Two diagonals and one included angle.
4. One side, one diagonal and one angle.

Note

 Similar arrows indicates the parallel sides.	 Similar lines indicates the congruent sides.	 Figure shows that the diagonals bisect each other.	 Figure shows that the opposite angles are congruent.
